Commentary

David Smith, Chairman and Chief Executive Officer of Sonic Automotive, stated, "We are proud of our team's performance in the first quarter, and are excited to build on last year's success as we move forward in 2023. Despite ongoing challenges in the automotive retail industry, including rising interest rates and vehicle affordability concerns, we remain focused on delivering an exceptional guest experience and executing our long-term strategic plan. We are excited about the prospects for our core franchised dealerships business, and the growth opportunities at EchoPark and our growing powersports business, as we leverage our diversified portfolio to maximize future earnings potential."

Jeff Dyke, President of Sonic Automotive, commented, "Our franchised dealerships team continues to demonstrate the adaptability of our business, achieving all-time record quarterly Fixed Operations gross profit while actively addressing ongoing challenges in the new and used vehicle retail market. We are also encouraged by the momentum we are seeing at EchoPark, with 34% growth in sales

volume year-over-year, demonstrating that our below-market pricing and exceptional guest experience continue to resonate with shoppers in the face of ongoing affordability challenges. We are committed to EchoPark's long-term earnings potential and remain focused on executing strategic enhancements to the business model in 2023 as we drive toward EchoPark's expected return to profitability in 2024."

Heath Byrd, Chief Financial Officer of Sonic Automotive, added, "Our diversified business model continues to allow us to focus on the long-term growth potential at EchoPark and our powersports business, while utilizing the cash flows from our franchised dealerships business to support our capital strategy via our dividend and share repurchases while continuing to invest in the business. We are increasingly focused on our disciplined, return-based capital allocation in the face of an uncertain macroeconomic outlook. As of March 31, 2023, we had \$893 million of liquidity, including \$432 million in cash and floor plan deposits on hand, which we believe provides us flexibility to strategically deploy capital in 2023 and beyond to continue to deliver long-term returns for our stockholders."
