Dear 2020 Sonic Automotive, Inc. Shareowner:

**Vote AGAINST Re-election of O. Bruton Smith, William I. Belk, Victor H. Doolan, John W. Harris III, R. Eugene Taylor, William R. Brooks and Robert Heller**

At the April 29, 2020 Sonic Automotive, Inc. Annual General Meeting CalPERS will be voting AGAINST O. Bruton Smith (Board Chair), William I. Belk, Victor H. Doolan, John W. Harris III, R. Eugene Taylor (Nominating and Corporate Governance Committee members), William R. Brooks and Robert Heller (both long-tenured directors with 12 or more years of service) who are standing for re-election at the company's 2020 Annual General Meeting. As of record date March 9, 2020, CalPERS owned 58,391 shares of Sonic Automotive, Inc. common stock. As a long-term shareowner of the company, we believe these seven board members have demonstrated a lack of responsiveness to multiple CalPERS shareowner engagement requests to address board composition related to diversity.

**CalPERS Governance & Sustainability Principles Advocate for Board Diversity**

Consistent with the CalPERS Governance & Sustainability Principles<sup>1</sup> we believe the board should facilitate a process that ensures a thorough understanding of the diverse characteristics necessary to effectively oversee management's execution of a long-term business strategy. Specifically, board diversity should be thought of in terms of skill sets, gender, age, nationality, race, sexual orientation, gender identity, and historically under-represented groups. Consideration should go beyond the traditional notion of diversity to include a more broad range of experience, thoughts, perspectives, and competencies to help enable effective board leadership.

**Growing Evidence Diversity is Good for Business Performance**

The 2015 McKinsey & Co. study, "Why Diversity Matters," shows that companies in the top quartile for gender diversity and racial and ethnic diversity are respectively 15% and 35% more likely to have financial returns above their respective national industry median, while those in the bottom quartile are less likely to do so.<sup>2</sup> Another report from McKinsey titled "Delivering Through Diversity" shows that companies in the top-quartile for gender diversity on executive teams were 21% more likely to outperform on profitability and 27% more likely to have superior value creation than companies in the fourth quartile. For ethnic/cultural diversity, top-quartile companies were 33% more likely to outperform on profitability.<sup>3</sup>
