**Item 1.01 Entry into a Material Definitive Agreement**

On December 22, 2005, a committee of the Board of Directors of Sonic Automotive, Inc. ("Sonic") approved the accelerated vesting of all outstanding options to purchase Sonic's Class A common stock with an exercise price of more than \$22.55 per share, which was the reported closing sales price of Sonic's Class A Common Stock on the New York Stock Exchange that same day. The stock options subject to the accelerated vesting were granted under the Sonic Automotive, Inc. 1997 Stock Option Plan, as amended, and under the Sonic Automotive, Inc. 2004 Stock Incentive Plan (each a "Plan"), and include outstanding stock options granted to Sonic's executive officers. The stock options being accelerated will continue to be subject to the terms and conditions of the Plan under which they were granted, and all other terms and conditions of those stock options will remain the same.

The purpose of the accelerated vesting of these stock options is to reduce the non-cash compensation expense that Sonic would have recorded in future periods pursuant to Statement of Financial Accounting Standards No. 123, "Share Based Payment (revised 2004)" ("SFAS 123R"). SFAS 123R generally requires that the fair value of stock options and other equity-based compensation be recognized as compensation expense during a defined service period. SFAS 123R will become effective for Sonic on January 1, 2006. Sonic believes that, because the stock options being accelerated have exercise prices in excess of the market price of Sonic's Class A Common Stock on the day of acceleration, the stock options have limited economic value at this time, and recognition of this expense in future periods could overstate the compensation value.
