SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Basis of Presentation— The accompanying Unaudited Condensed Consolidated Financial Statements for the third quarter and nine-month periods ended September 30, 2011 and 2010 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). All significant intercompany accounts and transactions have been eliminated. These Unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all material normal recurring adjustments necessary to fairly state the financial position and the results of operations for the periods presented. The results for interim periods are not necessarily indicative of the results to be expected for the entire fiscal year. These interim financial statements should be read in conjunction with the audited Consolidated Financial Statements of Sonic Automotive, Inc. (“Sonic” or the “Company”) for the year ended December 31, 2010, which were included in Sonic’s Annual Report on Form 10-K.

Recent Accounting Pronouncements— In June 2011, the Financial Accounting Standards Board (“FASB”) issued an update to “Comprehensive Income” in the Accounting Standards Codification (“ASC”). This update requires an entity to present total net income, the components of other comprehensive income and total comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This update is effective for issuers with fiscal years and interim periods within those years beginning after December 15, 2011. Sonic chose to early adopt the provisions of this update (as permitted by the terms of the update) and has included separate Unaudited Condensed Consolidated Statements of Comprehensive Income immediately following its Unaudited Condensed Consolidated Statements of Income.

Lease Exit Accruals— Lease exit accruals relate to facilities Sonic has ceased using in its operations. The accruals represent the present value of the lease payments, net of estimated or actual sublease proceeds, for the remaining life of the operating leases and other accruals necessary to satisfy the lease commitment to the landlord. A summary of the activity of these lease exit accruals consists of the following:

	(In thousands)
Balance, December 31, 2010	\$ 43,534
Lease exit expense (1)	4,195
Payments	<u>(6,586)</u>
Balance, September 30, 2011	<u>\$ 41,143</u>

- (1) Approximately \$0.4 million is recorded in interest expense, other, net, approximately \$3.6 million is recorded in selling, general and administrative expenses and approximately \$0.2 million is recorded to income (loss) from operations and the sale of discontinued franchises in the accompanying Unaudited Condensed Consolidated Statements of Income.

Income Tax Expense— The overall effective tax rates for the third quarter and nine-month periods ended September 30, 2011 and 2010 are higher than federal statutory rates due to the effect of state income taxes. The overall effective tax rate from continuing operations was 38.5% and 39.5% for the third quarter and nine-month periods ended September 30, 2011, respectively. The overall effective tax rate from continuing operations was 37.7% and 39.8% for the third quarter and nine-month periods ended September 30, 2010, respectively. The effective rate for the nine-month period ended September 30, 2011 was different than the prior year period due to the level of overall taxable income and the shift in the distribution of taxable income between states in which Sonic operates.

2. Discontinued Operations

Dispositions— The operating results of disposed franchises are included in the loss from discontinued operations in Sonic’s Unaudited Condensed Consolidated Statements of Income. At September 30, 2011, there were no dealership franchises held for sale.

In the nine-month period ended September 30, 2011, capital expenditures were approximately \$135.9 million (\$81.5 million, net of mortgage funding of \$54.4 million). In January 2011, Sonic purchased five dealership properties for \$75.2 million which it previously leased through long-term operating leases, utilizing cash on hand and borrowings under the 2010 Credit Facilities (see Note 6 for discussion on the 2010 Credit Facilities). Subsequent to the purchase date, Sonic obtained mortgage funding of \$54.4 million related to these properties.

2011 Credit Facilities

On July 8, 2011, Sonic entered into an amended and restated syndicated revolving credit agreement (the “2011 Revolving Credit Facility”) and a syndicated floor plan credit facility (the “2011 Floor Plan Facility”). The 2011 Revolving Credit Facility and 2011 Floor Plan Facility (collectively the “2011 Credit Facilities”) are scheduled to mature on August 15, 2016. This amendment and restatement extended the term of the previous existing syndicated credit facilities that were scheduled to mature on August 15, 2012, increased the borrowing capacity under the previous existing syndicated credit facilities by \$234.0 million and modified certain covenant and compliance calculations on a prospective basis.

Availability under the 2011 Revolving Credit Facility is calculated as the lesser of \$175.0 million or a borrowing base calculated based on certain eligible assets plus 50% of the fair market value of 5,000,000 shares of common stock of Speedway Motorsports, Inc. (“SMI”) that are pledged as collateral, less the aggregate face amount of any outstanding letters of credit under the 2011 Revolving Credit Facility (the “2011 Revolving Borrowing Base”). The 2011 Revolving Credit Facility may be increased at our option to \$225.0 million upon satisfaction of certain conditions. A withdrawal of the pledge of SMI common stock by Sonic Financial Corporation (“SFC”), which holds the 5,000,000 shares of common stock of SMI, or a decline in the value of SMI common stock, could reduce the amount Sonic can borrow under the 2011 Revolving Credit Facility.

At September 30, 2011, the 2011 Revolving Borrowing Base was approximately \$146.5 million. At September 30, 2011, Sonic had \$40.3 million in outstanding letters of credit and \$18.0 million in outstanding borrowings under the 2011 Revolving Credit Facility, resulting in total borrowing availability of \$88.2 million under the 2011 Revolving Credit Facility.

Outstanding obligations under the 2011 Revolving Credit Facility are secured by a pledge of substantially all of the assets of Sonic and its subsidiaries and by the pledge of 5,000,000 shares of common stock of SMI by SFC. The collateral also includes a pledge of the franchise agreements and stock or equity interests of Sonic’s dealership franchise subsidiaries, except for those dealership franchise subsidiaries where the applicable manufacturer prohibits such a pledge, in which cases the stock or equity interests of the dealership franchise subsidiary is subject to an escrow arrangement with the administrative agent. Substantially all of Sonic’s subsidiaries also guarantee its obligations under the 2011 Revolving Credit Facility.

The maturity date of the 2011 Revolving Credit Facility may in certain circumstances be accelerated (the “Springing Maturity Date”) if the share price of Sonic’s common stock falls below a certain level or if Sonic does not maintain certain liquidity levels during enumerated periods of time prior to the maturity date (including dates upon which Sonic may be compelled to repurchase such indebtedness) of certain indenture indebtedness or other indebtedness with an outstanding balance in excess of \$35.0 million. In addition, availability of the 2011 Revolving Credit Facility may be curtailed during enumerated periods related to any Springing Maturity Date.

The 2011 Floor Plan Facility is comprised of a new vehicle revolving floor plan facility in an amount up to \$500.0 million (the “2011 New Vehicle Floor Plan Facility”) and a used vehicle revolving floor plan facility in an amount up to \$80.0 million, subject to a borrowing base (the “2011 Used Vehicle Floor Plan Facility”). Sonic may, under certain conditions, request an increase in the 2011 Floor Plan Facility of up to \$175.0 million, which shall be allocated between the 2011 New Vehicle Floor Plan Facility and the 2011 Used Vehicle Floor Plan Facility as Sonic requests, with no more than 15% of the aggregate commitments allocated to the commitments under the 2011 Used Vehicle Floor Plan Facility. Outstanding obligations under the 2011 Floor Plan Facility are guaranteed by Sonic and certain of its subsidiaries and are secured by a pledge of substantially all of the assets of Sonic and its subsidiaries.

The amounts outstanding under the 2011 Credit Facilities bear interest at variable rates based on specified percentages above LIBOR according to a performance-based pricing grid determined by Sonic’s Consolidated Total Debt to EBITDA Ratio (as defined in the 2011 Credit Facilities) as of the last day of the immediately preceding fiscal quarter.

Sonic agreed under the 2011 Credit Facilities not to pledge any assets to any third party, subject to certain stated exceptions, including floor plan financing arrangements. In addition, the 2011 Credit Facilities contain certain negative covenants, including covenants which could restrict or prohibit indebtedness, liens, the payment of dividends, capital expenditures and material dispositions and acquisitions of assets as well as other customary covenants and default provisions. Specifically, the 2011 Credit Facilities permit cash dividends on Sonic’s Class A and Class B common stock so long as no event of default (as defined in the 2011 Credit Facilities) has occurred and is continuing and provided that Sonic remains in compliance with all financial covenants under the 2011 Credit Facilities.

2010 Credit Facilities

On January 15, 2010, Sonic entered into an amended and restated syndicated revolving credit agreement (the “2010 Revolving Credit Facility”) and a syndicated floor plan credit facility (the “2010 Floor Plan Facility”). The 2010 Revolving Credit Facility and 2010 Floor Plan Facility (collectively the “2010 Credit Facilities”) were scheduled to mature on August 15, 2012. On July 8, 2011, these were replaced by the 2011 Credit Facilities discussed above.

Covenants

The 2011 Credit Facilities contain certain covenants, including covenants which could restrict or prohibit indebtedness, liens, payment of dividends, capital expenditures and material dispositions and acquisitions of assets, as well as other customary covenants and default provisions. Sonic was in compliance with the covenants under the 2011 Credit Facilities as of September 30, 2011 and expects to be in compliance with all such covenants for the foreseeable future. Financial covenants include required specified ratios (as each is defined in the 2011 Credit Facilities) of:

	Covenant		
	Consolidated Liquidity Ratio	Consolidated Fixed Charge Coverage Ratio	Consolidated Total Lease Adjusted Leverage Ratio
March 31, 2011 through and including March 30, 2012	³ 1.05	³ 1.15	£ 5.50
March 31, 2012 and thereafter	³ 1.10	³ 1.20	£ 5.50
September 30, 2011 actual	1.11	1.63	4.21

The 2011 Credit Facilities contain events of default, including cross-defaults to other material indebtedness, change of control events and events of default customary for syndicated commercial credit facilities. Upon the future occurrence of an event of default, Sonic could be required to immediately repay all outstanding amounts under the 2011 Credit Facilities.

In addition, many of Sonic’s facility leases are governed by a guarantee agreement between the landlord and Sonic that contains financial and operating covenants. The financial covenants are identical to those under the 2011 Credit Facilities with the exception of one financial covenant related to the ratio of EBTDAR to Rent (as defined in the lease agreements) with a required ratio of no less than 1.5 to 1.0. At September 30, 2011, the ratio was 2.68 to 1.0.

9.0% Senior Subordinated Notes

The 9.0% Notes are unsecured senior subordinated obligations of Sonic and are guaranteed by Sonic’s domestic operating subsidiaries. Interest is payable semi-annually on March 15 and September 15 each year. Sonic may redeem the 9.0% Notes in whole or in part at any time after March 15, 2014 at the following redemption prices, which are expressed as percentages of the principal amount:

	Redemption
Beginning on March 15, 2014	104.50%
Beginning on March 15, 2015	102.25%
Beginning on March 15, 2016 and thereafter	100.00%

In addition, on or before March 15, 2013, Sonic may redeem up to 35% of the aggregate principal amount of the 9.0% Notes at par value plus accrued interest with proceeds from certain equity offerings. The Indenture also provides that holders of 9.0% Notes may require Sonic to repurchase the 9.0% Notes at 101% of the par value of the 9.0% Notes, plus accrued interest if Sonic undergoes a “change of control” as defined in the Indenture.

The Indenture governing the 9.0% Notes contains certain specified restrictive covenants. Sonic has agreed not to pledge any assets to any third party lender of senior subordinated debt except under certain limited circumstances. Sonic also has agreed to certain other limitations or prohibitions concerning the incurrence of other indebtedness, capital stock, guarantees, asset sales, investments, cash dividends to stockholders, distributions and redemptions. Specifically, the indenture governing Sonic’s 9.0% Notes limits Sonic’s ability to pay quarterly cash dividends on Sonic’s Class A and B common stock

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

in excess of \$0.10 per share. Sonic may only pay quarterly cash dividends on Sonic's Class A and B common stock if Sonic complies with the terms of the indenture governing the 9.0% Notes. Sonic was in compliance with all restrictive covenants as of September 30, 2011.

Balances outstanding under Sonic's 9.0% Notes are guaranteed by all of Sonic's operating domestic subsidiaries. These guarantees are full and unconditional and joint and several. The parent company has no independent assets or operations. The non-domestic and non-operating subsidiaries that are not guarantors are considered to be minor.

Sonic's obligations under the 9.0% Notes may be accelerated by the holders of 25% of the outstanding principal amount of the 9.0% Notes then outstanding if certain events of default occur, including: (1) defaults in the payment of principal or interest when due; (2) defaults in the performance, or breach, of Sonic's covenants under the 9.0% Notes; and (3) certain defaults under other agreements under which Sonic or its subsidiaries have outstanding indebtedness in excess of \$35.0 million.

8.625% Senior Subordinated Notes

On July 15, 2011, Sonic issued a redemption notice to holders of the 8.625% Notes to redeem the remaining \$42.9 million in aggregate principal amount of its outstanding 8.625% Notes. Sonic used cash on hand and available borrowings under the 2011 Credit Facilities to redeem the remaining \$42.9 million in aggregate principal amount at the applicable redemption price (100% of principal redeemed) plus accrued but unpaid interest on August 16, 2011. Sonic recognized a loss of \$0.2 million on extinguishment of the remaining 8.625% Notes related to the write-off of remaining debt discount and capitalized deferred finance costs, recorded in other expense, net, in the accompanying Unaudited Condensed Consolidated Statements of Income.

5.0% Convertible Senior Notes

During the third quarter ended September 30, 2011, Sonic repurchased approximately \$7.4 million of the aggregate outstanding principal amount of the 5.0% Convertible Notes and recorded a loss on repurchase of approximately \$0.7 million recorded in other expense, net, in the accompanying Unaudited Condensed Consolidated Statements of Income.

Interest payments on the 5.0% Convertible Notes are payable semiannually on April 1 and October 1 of each year, beginning on April 1, 2010. The 5.0% Convertible Notes mature on October 1, 2029. Sonic may redeem some or all of the 5.0% Convertible Notes for cash at any time subsequent to October 1, 2014 at a repurchase price equal to 100% of the outstanding principal amount of the notes. Holders have the right to require Sonic to purchase the 5.0% Convertible Notes on each of October 1, 2014, October 1, 2019 and October 1, 2024 or in the event of a change in control for cash at a purchase price equal to 100% of the outstanding principal amount of the notes.

Holders of the 5.0% Convertible Notes may convert their notes at their option prior to the close of business on the business day immediately preceding July 1, 2029 only under the following circumstances: (1) during any fiscal quarter commencing after December 31, 2009, if the last reported sale price of the Class A common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the "measurement period") in which the trading price (as defined below) per \$1,000 principal amount of notes for each day of that measurement period was less than 98% of the product of the last reported sale price of Sonic's Class A common stock and the applicable conversion rate on each such day; (3) if Sonic calls any or all of the notes for redemption, at any time prior to the close of business on the third scheduled trading day prior to the redemption date; or (4) upon the occurrence of specified corporate events. On and after July 1, 2029, to (and including) the close of business on the third scheduled trading day immediately preceding the maturity date, holders may convert their notes at any time, regardless of the foregoing circumstances. The conversion rate is 74.7245 shares of Class A common stock per \$1,000 principal amount of notes, which is equivalent to a conversion price of approximately \$13.38 per share of Class A common stock. None of the conversion features of the 5.0% Convertible Notes were triggered in the nine-month period ended September 30, 2011.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

To recognize the equity component of a convertible borrowing instrument, upon issuance of the 5.0% Convertible Notes in September 2009, Sonic recorded a debt discount of \$31.0 million and a corresponding amount (net of taxes of \$12.8 million) to equity, based on an estimated non-convertible borrowing rate of 10.5%. The debt discount is being amortized to interest expense through October 2014, the earliest redemption date. The unamortized debt discount was \$20.3 million and \$24.7 million at September 30, 2011 and December 31, 2010, respectively.

Sonic incurred interest expense related to the 5.0% Convertible Notes of approximately \$2.1 million and \$6.4 million for the third quarter and nine-month periods ended September 30, 2011, respectively, and \$2.2 million and \$6.5 million for the third quarter and nine-month periods ended September 30, 2010, respectively, recorded to interest expense, other, net, in the accompanying Unaudited Condensed Consolidated Statements of Income. In addition, Sonic recorded interest expense associated with the amortization of debt discount and deferred loan costs on the 5.0% Convertible Notes of \$1.7 million and \$5.2 million for the third quarter and nine-month periods ended September 30, 2011, respectively, and \$1.6 million and \$4.7 million for the third quarter and nine-month periods ended September 30, 2010, respectively, recorded to interest expense, non-cash, convertible debt in the accompanying Unaudited Condensed Consolidated Statements of Income.

Mortgage Notes

Mortgage notes require monthly payments of principal and interest through maturity and are secured by the underlying properties. Maturity dates range between June 2013 and December 2031. The weighted average interest rate was 4.78% at September 30, 2011. Sonic purchased five dealership properties in January 2011 for \$75.2 million which it previously occupied under operating lease agreements. The properties were purchased utilizing cash on hand and borrowings under the 2010 Credit Facilities. Subsequent to the purchase date, Sonic secured mortgages on these properties totaling \$54.4 million and used the proceeds from these mortgages to pay down borrowings under the 2010 Credit Facilities.

Derivative Instruments and Hedging Activities

At September 30, 2011 Sonic had interest rate cash flow swap agreements to effectively convert a portion of its LIBOR-based variable rate debt to a fixed rate. The fair value of these swap positions at September 30, 2011 was a liability of \$39.3 million, with \$14.8 million included in other accrued liabilities and \$24.5 million included in Other Long-Term Liabilities in the accompanying Unaudited Condensed Consolidated Balance Sheets. Under the terms of these cash flow swaps, Sonic will receive and pay interest based on the following:

Notional (In millions)	Pay Rate	Receive Rate (1)	Maturing Date
\$ 200.0	4.935%	one-month LIBOR	May 1, 2012

- (1) The one-month LIBOR rate was 0.239% at September 30, 2011.
- (2) Changes in fair value are recorded through earnings.
- (3) The effective date of these forward-starting swaps is July 2, 2012.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

During the nine-month period ended September 30, 2011, Sonic entered into four \$50.0 million notional forward-starting interest rate cash flow swap agreements that become effective in July 2012. Two of the agreements terminate in July 2014 and the other two agreements terminate in July 2015. These interest rate swaps have been designated and qualify as cash flow hedges and, as a result, changes in the fair value of these swaps are recorded in accumulated other comprehensive loss, net of related income taxes, in the Unaudited Condensed Consolidated Statements of Stockholders' Equity.

For the cash flow swaps not designated as hedges and amortization of amounts in accumulated other comprehensive loss related to terminated cash flow swaps, certain benefits and charges were included in interest expense/amortization, non-cash, cash flow swaps in the accompanying Unaudited Condensed Consolidated Statements of Income. For the third quarter and nine-month periods ended September 30, 2011, these amounts included non-cash charges of \$0.3 million and \$0.6 million, respectively. For the third quarter and nine-month periods ended September 30, 2010, these amounts included non-cash charges of \$1.5 million and \$5.4 million, respectively.

For the cash flow swaps that qualify as cash flow hedges, the changes in the fair value of these swaps have been recorded in accumulated other comprehensive loss, net of related income taxes, in the Unaudited Condensed Consolidated Statements of Stockholders' Equity. The incremental interest expense (the difference between interest paid and interest received) related to these cash flow swaps was \$4.5 million and \$13.3 million for the third quarter and nine-month periods ended September 30, 2011, respectively, and \$4.4 million and \$13.1 million for the third quarter and nine-month periods ended September 30, 2010, respectively. This expense is included in interest expense, other, net, in the accompanying Unaudited Condensed Consolidated Statements of Income. The estimated net expense expected to be reclassified out of accumulated other comprehensive loss into results of operations during the next twelve months is approximately \$9.2 million.

7. Per Share Data and Stockholders' Equity

The calculation of diluted earnings per share considers the potential dilutive effect of Sonic's contingently convertible debt issuances and stock options to purchase shares of Class A common stock under several equity compensation plans. The following table illustrates the dilutive effect of such items on earnings per share for the third quarter and nine-month periods ended September 30, 2011 and 2010:

In addition to the stock options included in the table above, options to purchase approximately 2.1 million shares and 2.3 million shares of Class A common stock were outstanding at September 30, 2011 and September 30, 2010, respectively, but were not included in the computation of diluted earnings per share because the options were not dilutive. In addition, in the event the effect of potentially dilutive shares associated with any of Sonic's convertible notes were anti-dilutive, the effect of those shares have also been excluded from the computation of diluted earnings per share.

8. Contingencies

Legal and Other Proceedings:

Several private civil actions have been filed against Sonic Automotive, Inc. and several of its dealership subsidiaries that purport to represent classes of customers as potential plaintiffs and made allegations that certain products sold in the finance and insurance departments were done so in a deceptive or otherwise illegal manner. One of these private civil actions was filed on November 15, 2004 in South Carolina state court, York County Court of Common Pleas, against Sonic Automotive, Inc. and 10 of Sonic's South Carolina subsidiaries. The plaintiffs in that lawsuit were Misty J. Owens, James B. Wright, Vincent J. Astey and Joseph Lee Williams, on behalf of themselves and all other persons similarly situated, with plaintiffs seeking monetary damages and injunctive relief on behalf of the purported class. The group of plaintiffs' attorneys representing the plaintiffs in the South Carolina lawsuit also filed another private civil class action lawsuit against Sonic Automotive, Inc. and 3 of its subsidiaries on February 14, 2005 in state court in North Carolina, Lincoln County Superior Court, which similarly sought certification of a multi-state class of plaintiffs and alleged that certain products sold in the finance and insurance departments were done so in a deceptive or otherwise illegal manner. The plaintiffs in this North Carolina lawsuit were Robert Price, Carolyn Price, Marcus Cappeletti and Kathy Cappeletti, on behalf of themselves and all other persons similarly situated, with plaintiffs seeking monetary damages and injunctive relief on behalf of the purported

class. The South Carolina state court action and the North Carolina state court action have since been consolidated into a single proceeding in private arbitration before the American Arbitration Association. On November 12, 2008, claimants in the consolidated arbitration filed a Motion for Class Certification as a national class action including all of the states in which Sonic operates dealerships. Claimants are seeking monetary damages and injunctive relief on behalf of this class of customers. The parties have briefed and argued the issue of class certification.

On July 19, 2010, the Arbitrator issued a Partial Final Award on Class Certification, certifying a class which includes all customers who, on or after November 15, 2000, purchased or leased from a Sonic dealership a vehicle with the Etch product as part of the transaction, but not including customers who purchased or leased such vehicles from a Sonic dealership in Florida. The Partial Final Award on Class Certification is not a final decision on the merits of the action. The merits of Claimants' assertions and potential damages will still have to be proven through the remainder of the arbitration. The Arbitrator stayed the Arbitration for thirty days to allow either party to petition a court of competent jurisdiction to confirm or vacate the award. Sonic will seek review of the class certification ruling by a court of competent jurisdiction and will continue to press its argument that this action is not suitable for a class-based arbitration. On July 22, 2010, the plaintiffs in this consolidated arbitration filed a Motion to Confirm the Arbitrator's Partial Final Award on Class Certification in state court in North Carolina, Lincoln County Superior Court. On August 17, 2010, Sonic filed to remove this North Carolina state court action to federal court, and simultaneously filed a Petition to Vacate the Arbitrator's Partial Final Award on Class Certification, with both filings made in the United States District Court for the Western District of North Carolina.

On August 12, 2011, the United States District Court for the Western District of North Carolina issued an Order granting Sonic's Petition to Vacate Arbitration Award on Class Certification and denied Claimant's Motion to Dismiss the same. Claimants filed a Notice of Appeal to the United States Fourth Circuit Court of Appeals on September 12, 2011. The federal court's stay of the arbitration proceeding remains in force pending a ruling on Claimants' motion to lift the stay, which motion Sonic has opposed. Sonic intends to continue its vigorous defense of this arbitration and to assert all available defenses. However, an adverse resolution of this arbitration could result in the payment of significant costs and damages, which could have a material adverse effect on Sonic's future results of operations, financial condition and cash flows. Sonic is currently unable to estimate a range of reasonably possible loss, or a range of reasonably possible loss in excess of amount accrued, for this litigation matter.

Sonic is involved, and expects to continue to be involved, in numerous legal and administrative proceedings arising out of the conduct of its business, including regulatory investigations and private civil actions brought by plaintiffs purporting to represent a potential class or for which a class has been certified. Although Sonic vigorously defends itself in all legal and administrative proceedings, the outcomes of pending and future proceedings arising out of the conduct of Sonic's business, including litigation with customers, employment related lawsuits, contractual disputes, class actions, purported class actions and actions brought by governmental authorities, cannot be predicted with certainty. An unfavorable resolution of one or more of these matters could have a material adverse effect on Sonic's business, financial condition, results of operations, cash flows or prospects. Included in other accrued liabilities at September 30, 2011 and December 31, 2010 was \$1.8 million and \$9.1 million, respectively, in reserves that Sonic has provided for pending proceedings. Except as reflected in such reserves, Sonic is currently unable to estimate a range of reasonably possible loss, or a range of reasonably possible loss in excess of the amount accrued, for pending proceedings.

Guarantees and Indemnification Obligations:

In connection with franchise dispositions, certain of Sonic's dealership subsidiaries have assigned or sublet to the buyer its interests in real property leases associated with such dealerships. In general, Sonic's dealership subsidiaries retain responsibility for the performance of certain obligations under such leases, including rent payments and repairs to leased property upon termination of the lease, to the extent that the assignee or sub-lessee does not perform. In the event the sub-lessees do not perform under their obligations Sonic remains liable for the lease payments. The total amount relating to this risk was approximately \$106.2 million as of December 31, 2010. See Sonic's Annual Report on Form 10-K for the year ended December 31, 2010 for further discussion.

In accordance with the terms of agreements entered into for the sale of Sonic's franchises, Sonic generally agrees to indemnify the buyer from certain exposure and costs arising subsequent to the date of sale, including environmental exposure and exposure resulting from the breach of representations or warranties made in accordance with the agreement. While Sonic's exposure with respect to environmental remediation and repairs is difficult to quantify, Sonic estimates that the maximum exposure associated with these general indemnifications if the counterparties failed to perform under their contractual obligations was approximately \$3.1 million and \$12.8 million at September 30, 2011 and December 31, 2010, respectively. These indemnifications expire within a period of one to two years following the date of sale. The estimated fair

value of these indemnifications was not material. Sonic also guarantees the floor plan commitments of its 50% owned joint venture, the amount of which was \$4.5 million at both September 30, 2011 and December 31, 2010.

9. Fair Value Measurements

In determining fair value, Sonic uses various valuation approaches including market, income and/or cost approaches. “Fair Value Measurements and Disclosures” in the ASC establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of Sonic. Unobservable inputs are inputs that reflect Sonic’s assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities that Sonic has the ability to access. Assets utilizing Level 1 inputs include marketable securities that are actively traded.

Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly. Assets and liabilities utilizing Level 2 inputs include cash flow swap instruments.

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement. Asset and liability measurements utilizing Level 3 inputs include those used in estimating fair value of non-financial assets and non-financial liabilities in purchase acquisitions, those used in assessing impairment of property, plant and equipment and other intangibles and those used in the reporting unit valuation in the first step of the annual goodwill impairment evaluation. For instance, certain assets held for sale in the accompanying Unaudited Condensed Consolidated Balance Sheets are valued based on estimated proceeds to be received in connection with the disposal of those assets.

The availability of observable inputs can vary and is affected by a wide variety of factors. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment required by Sonic in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed is determined based on the lowest level input (Level 3 being the lowest level) that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, Sonic’s own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Sonic uses inputs that are current as of the measurement date, including during periods when the market may be abnormally high or abnormally low. Accordingly, fair value measurements can be volatile based on various factors that may or may not be within Sonic’s control.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of the results of operations and financial condition should be read in conjunction with the Sonic Automotive, Inc. and Subsidiaries Unaudited Condensed Consolidated Financial Statements and the related notes thereto appearing elsewhere in this report, as well as the audited financial statements and related notes and "Management's Discussion and Analysis of Financial Condition and Results of Operations" appearing in our Annual Report on Form 10-K for the year ended December 31, 2010.

Overview

We are one of the largest automotive retailers in the United States, operating in 15 states. As of September 30, 2011, we operated 136 dealership franchises at 119 locations (representing 30 different brands of cars and light trucks) and 24 collision repair centers. Our dealerships provide comprehensive services including sales of both new and used cars and light trucks, sales of replacement parts, performance of vehicle maintenance, manufacturer warranty repairs, paint and collision repair services, and arrangement of extended service contracts, financing, insurance and other aftermarket products for our customers.

In March 2011, a powerful earthquake off the coast of Japan produced a massive tsunami, affecting certain east coast regions of Japan. The effects of the earthquake and tsunami caused widespread damage and destruction of property and localized disruption of the power supply. These events have disrupted our Japanese manufacturer partners' supply-chain and vehicle production capacity. As Japan continues to focus on recovering from this natural disaster, it is uncertain as to the continuing effects this event may have on these manufacturer partners' supply-chain and production. During the third quarter and nine-month periods ended September 30, 2011, these events resulted in lower allocations of new vehicle inventory from the Japanese import brands, which affected new vehicle revenues, new vehicle gross margins, consumer brand preferences and our ability to source used inventory through trades. We are beginning to see improvement in new vehicle inventory allocations from the Japanese import brands; however, it is still uncertain when inventory levels will return to normal and how these events will impact our business in the fourth quarter of 2011 and beyond.

Results of Operations

The following discussions are based on reported figures. Same store amounts do not vary significantly from reported totals since there were no significant dealership franchise acquisitions subsequent to December 31, 2009.

New Vehicles

The automobile retail industry uses the Seasonally Adjusted Annual Rate ("SAAR") to measure the amount of new vehicle unit sales activity within the United States market. The SAAR averages below reflect a blended average of all brands marketed or sold in the United States market. The SAAR includes brands we do not sell and locations in which we do not operate.

Gross profit as a % of revenue	6.4%	6.6%	(20)	bps

The increase in new vehicle revenues for the third quarter and nine-month periods ended September 30, 2011 was primarily driven by increases in our new unit sales volume, which outpaced industry new unit sales volume increases of 6.9% and 10.6%, respectively. Our new unit volume increases for the third quarter and nine-month periods ended September 30, 2011 were led by our BMW/Mini and General Motors (excluding Cadillac) dealerships, which combined accounted for 74.3% and 49.8% of the year-over-year increases, respectively. For the third quarter and nine-month periods ended September 30, 2011, the majority of our brands outperformed their local market peer group for their respective brand.

New vehicle sales volume for our major Japanese brands (Honda, Toyota/Scion and Lexus) continued to suffer in the third quarter ended September 30, 2011 as a result of inventory supply reductions caused by the impact of the earthquake and tsunami that struck Japan in March 2011. Gross profit per new unit increased for each of these brands as a result of demand and the reduced supply of new vehicle inventory. Due to the lack of supply of new vehicles in Japanese brands, we believe many consumers chose to purchase other branded vehicles. As a result, we believe several of our other mid-line import brands experienced a benefit to their new vehicle sales, including Hyundai, Kia and Volkswagen.

Our luxury stores experienced new vehicle revenue increases of 11.9% and 15.1% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods, primarily due to increases in our new unit volume of 9.5% and 14.1%, respectively. Luxury new vehicle gross profit per unit improved slightly compared to the prior year periods and total luxury gross profit dollars were up 10.8% and 14.6% for the third quarter and nine-month periods ended September 30, 2011, respectively, as a result of the higher sales volume. Gross profit as a percentage of revenue at our luxury dealerships was relatively flat.

Our mid-line import new vehicle revenue improved 5.7% and 14.5% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods, primarily due to new unit sales volume increases at our Hyundai, Kia and Volkswagen dealerships. This increase for the third quarter ended September 30, 2011 was offset by new unit volume decreases at our Honda and Toyota dealerships due to inventory constraints caused by the

[Table of Contents](#)

manufacturers' supply disruptions. Overall mid-line import new vehicle gross profit was up 19.5% and 12.2% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods.

Our domestic stores experienced new vehicle revenue increases of 30.7% and 32.6% for the third quarter and nine-month periods ended September 30, 2011, respectively, primarily due to increases in new unit volume at our General Motors (excluding Cadillac) dealerships of 43.2% and 51.0%, respectively, compared to the same prior year periods. For the third quarter and nine-month periods ended September 30, 2011, our Ford dealerships' new unit volume increased 16.4% and 16.3%, respectively, compared to the same prior year periods.

Gross profit as a % of revenue	7.3%	8.0%	(70) bps	

The increase in used vehicle revenues for the third quarter and nine-month periods ended September 30, 2011, was primarily due to the increase in volume resulting from continued implementation of our standardized used vehicle merchandising process. This process allows us to purchase and price our used vehicles more competitively and market them more effectively. During the second and third quarters of 2011, new vehicle inventory shortages from Japanese manufacturers resulted in increased demand for particular models of used vehicles, resulting in higher costs to acquire certain used inventory as well as an increase in the sales price of specific used vehicles. However, improvement in Japanese new vehicle inventory levels at our stores during the third quarter of 2011 has put pressure on certain used vehicle margins.

The decrease in gross profit per unit for the third quarter and nine-month periods ended September 30, 2011 was due in part to the higher cost of units sold compared to the same prior year periods. Costs were higher as a result of acquiring more used vehicle inventory through auctions than through trades. Despite the higher cost to acquire through auctions than through trades, obtaining a greater number of used vehicles from auctions enabled us to better implement our standardized used vehicle merchandising process, allowing us to optimize the mix of used vehicles at each dealership, increasing unit sales and overall total gross profit (including contributions from increases in fixed operations and F&I revenue).

Gross loss per unit	\$ (244)	\$ (223)	\$ (21)	(9.4%)
Gross loss as a % of revenue	(3.8%)	(3.6%)	(20)	bps

During the third quarter and nine-month periods ended September 30, 2011, there was an increase in both wholesale revenue and wholesale unit sales, as well as an increase in wholesale gross loss per unit, compared to the same prior year periods. These increases were due primarily to a focus on reducing our used vehicle inventory balance as Japanese new vehicle inventory levels began to improve toward the end of the third quarter of 2011. See previous heading, "Used Vehicles".

Our fixed operations revenue increased 5.0% and 5.5% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods. Overall fixed operations customer pay revenue increased 4.1% and 2.6% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods.

Our domestic, mid-line import and luxury branded stores' customer pay revenue increased 7.4%, 2.5%, and 4.6%, respectively, for the third quarter ended September 30, 2011, and 2.7%, 1.8%, and 3.3%, respectively, for nine-month period ended September 30, 2011, compared to the same prior year periods. The decrease in our overall fixed operations gross margin rate for the third quarter and nine-month periods ended September 30, 2011 was primarily due to incremental sales growth in lower margin activities such as wholesale parts.

Finance, Insurance and Other ("F&I")

Our reported F&I results are as follows:

	For the Third Quarter Ended September 30,		Better / (Worse)	
	2011	2010	Change	% Change
(In thousands, except per unit data)				
Revenue	\$ 56,761	\$ 47,398	\$ 9,363	19.8%
Gross profit per retail unit (excludes fleet)	\$ 1,041	\$ 972	\$ 69	7.1%

	For the Nine Months Ended September 30,		Better / (Worse)	
	2011	2010	Change	% Change
(In thousands, except per unit data)				
Revenue	\$162,010	\$133,607	\$28,403	21.3%
Gross profit per retail unit (excludes fleet)	\$ 999	\$ 950	\$ 49	5.2%

F&I revenue increased for the third quarter and nine-month periods ended September 30, 2011 primarily due to increases of 11.9% and 15.3% in combined new and used retail unit volume, respectively, compared to the same prior year periods. F&I gross profit per unit improved due to increased penetration and pricing for both the third quarter and nine-month periods ended September 30, 2011. Finance contract gross revenue improved 23.3% and 24.3% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods, due to the increase in unit volume and increases in finance contract penetration rates of 130 basis points and 200 basis points, respectively.

Selling, General and Administrative ("SG&A") Expenses

SG&A expenses are comprised of four major groups: compensation expense, advertising expense, rent and rent related expense and other expense. Compensation expense primarily relates to dealership personnel who are paid a commission or a modest salary plus commission (which typically vary depending on gross profits realized) and support personnel who are paid a fixed salary. Due to the salary component for certain dealership and corporate personnel, gross profits and compensation expense do not change in direct proportion to one another. Advertising expense and other expenses vary based on the level of actual or anticipated business activity and number of dealerships owned. Rent and rent related expense typically varies with the number of dealerships owned, investments made for facility improvements and interest rates. Although SG&A expenses do not move exactly in proportion with changes in gross profit, we believe the best way to measure SG&A expenses is as a percentage of gross profit.

The increases in overall SG&A expense dollars for the third quarter and nine-month periods ended September 30, 2011 can largely be attributed to increases in revenues and gross profit. Overall SG&A expense as a percentage of gross profit improved 150 basis points and 230 basis points for the third quarter and nine-month periods ended September 30, 2011, respectively. The improvements were driven primarily by decreases in compensation costs and rent as a percentage of gross profit.

Compensation costs as a percentage of gross profit decreased 90 basis points and 160 basis points for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods, primarily due to higher gross profit levels in 2011 combined with continued efforts to align compensation with target levels of profit performance.

As compared to the same prior year periods, total advertising costs as a percentage of gross profit increased slightly for the third quarter and nine-month periods ended September 30, 2011 as a result of our retail advertising strategy.

Rent and rent related expenses decreased as a percentage of gross profit for the third quarter and nine-month periods ended September 30, 2011 compared to the same prior year periods, primarily due to the higher gross profit levels and the purchase of certain properties that were previously leased.

For the third quarter and nine-month periods ended September 30, 2011, other SG&A expenses increased from the comparable prior year periods due to IT spending, hail damage expenses, increased real estate taxes, sales tax refunds received in the prior year periods and the timing of certain insurance expenses.

Depreciation and Amortization

Depreciation and amortization expense increased \$1.6 million, or 18.4%, and \$4.4 million, or 17.0%, for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods. These increases are primarily related to the five dealership properties that we purchased in January 2011, which we previously leased through long-term operating leases. In addition, we completed and placed into service approximately \$46.3 million and \$66.6 million of construction projects during the third quarter and nine-month periods ended September 30, 2011, respectively.

Interest Expense, Floor Plan

Total new and used floor plan interest expense decreased approximately \$1.1 million, or 19.9%, and \$0.8 million, or 5.4%, for the third quarter and nine-month periods ended September 30, 2011, compared to the same prior year periods.

Floor plan interest expense for new vehicles decreased approximately \$1.3 million, or 26.2%, and \$0.9 million, or 6.9%, for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods. The weighted average new vehicle floor plan interest rate incurred by continuing dealerships decreased to 2.22% and 2.44% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the third quarter and nine-month periods ended September 30, 2010, which had weighted average rates of 2.72% and 2.67%, respectively. The weighted average floor plan balance for new vehicles decreased by approximately \$70.5 million and increased \$15.3 million for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods.

Floor plan interest expense for used vehicles increased approximately \$0.2 million, or 37.1%, and \$0.1 million, or 6.0%, for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods. The weighted average used vehicle floor plan interest rate incurred by continuing dealerships decreased to 3.00% and 2.69% for the third quarter and nine-month periods ended September 30, 2011, respectively, down from 3.15% and 2.80% for the third quarter and nine-month periods ended September 30, 2010, respectively. The weighted average floor plan balance for used vehicles increased by approximately \$29.9 million and \$8.6 million for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods.

Interest Expense, Other, Net

The change in interest expense, other, net, between the third quarter and nine-month periods ended September 30, 2011 and 2010 is summarized in the table below:

(1) Represent difference in cash payments to and from the counterparty.

During the nine-month period ended September 30, 2010, we incurred interest expense for both the 9.0% Notes issued March 12, 2010 and the \$200.0 million in aggregate principal of our 8.625% Notes that we redeemed on April 12, 2010 using the net proceeds from the 9.0% Notes issuance and cash on hand. This double carry effect increased our interest expense by

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

approximately \$1.5 million, which is included in the net \$1.4 million decrease for the nine-month period shown in the table above.

We have entered into various cash flow swaps to effectively convert a portion of our LIBOR-based variable rate debt to a fixed rate, in order to reduce our exposure to market risks from fluctuations in interest rates. The incremental interest expense (the difference between interest paid and interest received) related to these cash flow swaps was \$4.5 million and \$13.3 million for the third quarter and nine-month periods ended September 30, 2011, respectively, and \$4.4 million and \$13.1 million for the third quarter and nine-month periods ended September 30, 2010, respectively, and is included in interest expense, other, net, in the accompanying Unaudited Condensed Consolidated Statements of Income and in the line labeled "incremental interest expense related to variable to fixed rate swaps" in the table above.

Interest Expense/Amortization, Non-Cash, Cash Flow Swaps

For our cash flow swaps that qualify as cash flow hedges, the changes in the fair value of these swaps have been recorded in accumulated other comprehensive loss, net of related income taxes in the Unaudited Condensed Consolidated Statements of Stockholders' Equity. For the cash flow swaps not designated as hedges (changes in the fair value of notional amounts of certain cash flow swaps are recognized through earnings) and amortization of amounts in accumulated other comprehensive loss related to terminated cash flow swaps, certain benefits and charges were included in interest expense/amortization, non-cash, cash flow swaps in the accompanying Unaudited Condensed Consolidated Statements of Income. For the third quarter and nine-month periods ended September 30, 2011, these amounts included non-cash charges of \$0.3 million and \$0.6 million, respectively. For the third quarter and nine-month periods ended September 30, 2010, these amounts included non-cash charges of \$1.5 million and \$5.4 million, respectively. The non-cash charges for the third quarter and nine-month periods ended September 30, 2011 were lower than the same prior year periods primarily due to the amortization of an additional terminated cash flow swap in the prior year periods combined with reductions in the fair value of our cash flow swap liabilities in the current year. See the heading "Derivative Instruments and Hedging Activities" in Note 6 "Long-Term Debt," in the accompanying notes to the Unaudited Condensed Consolidated Financial Statements for further discussion.

Other Expense, Net

Other expense, net, increased by approximately \$0.5 million and decreased by approximately \$6.8 million for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the same prior year periods, as a result of losses on repurchases of our 5.0% Convertible Notes and 8.625% Notes in the current and prior year periods.

Income Taxes

The overall effective tax rate from continuing operations was 38.5% and 39.5% for the third quarter and nine-month periods ended September 30, 2011, respectively. The overall effective tax rate from continuing operations was 37.7% and 39.8% for the third quarter and nine-month periods ended September 30, 2010, respectively. The effective rate for the nine-month period ended September 30, 2011 was different than the same prior year period due to the level of overall taxable income and the shift in the distribution of taxable income between states in which we operate. We expect the effective tax rate for continuing operations in future periods to fall within a range of 38.0% to 41.0%.

Discontinued Operations

Significant components of results from discontinued operations were as follows:

	Third Quarter		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
	2011	2010	2011	2010

Total revenues	\$ —	\$ 9,473	\$ —	\$55,127

Income (loss) from discontinued operations improved for the third quarter and nine-month periods ended September 30, 2011 compared to the same prior year periods as a result of the disposition of several franchises during 2010. Lease exit charges recorded for the third quarter and nine-month periods ended September 30, 2011 and 2010 relate to interest charges, the revision of estimates on previously established lease exit accruals and adjustments for new sublease agreements. The lease exit accruals represent the present value of the lease payments, net of estimated or actual sublease proceeds, for the remaining life of the operating leases and other accruals necessary to satisfy the lease commitment to the landlord.

Liquidity and Capital Resources

We require cash to fund debt service, operating lease obligations, working capital requirements, dividends on our Common Stock and to finance acquisitions and invest in our business. We rely on cash flows from operations, borrowings under our revolving credit and floor plan borrowing arrangements, real estate mortgage financing, asset sales and offerings of debt and equity securities to meet these requirements. Our liquidity could be negatively affected if we fail to comply with the financial covenants in our existing debt or lease arrangements. Cash flows provided by our dealerships are derived from various sources. The primary sources include individual consumers, automobile manufacturers, automobile manufacturers' captive finance subsidiaries and finance companies. Disruptions in these cash flows can have a material and adverse impact on our operations and overall liquidity.

Because the majority of our consolidated assets are held by our dealership subsidiaries, the majority of our cash flows from operations are generated by these subsidiaries. As a result, our cash flows and ability to service our obligations depends to a substantial degree on the cash generated from the operations of these dealership subsidiaries.

Floor Plan Facilities

The weighted average interest rate for all of our new vehicle floor plan facilities (both continuing and discontinued operations) decreased to 2.22% and 2.44% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to the third quarter and nine-month periods ended September 30, 2010, which had weighted average rates of 2.74% and 2.70%, respectively. The weighted average interest rate for our used vehicle floor plan facility (both continuing and discontinued operations) was 3.00% and 2.69% for the third quarter and nine-month periods ended September 30, 2011, respectively, compared to 3.20% and 2.88% for the third quarter and nine-month periods ended September 30, 2010, respectively.

Interest payments under each of our floor plan facilities are due monthly and we are not required to make principal repayments prior to the sale of the floor plan financed vehicles. We were in compliance with all restrictive covenants under our floor plan facilities as of September 30, 2011 and expect to be in compliance with the covenants for the foreseeable future.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Long-Term Debt and Credit Facilities

See Note 6, "Long-Term Debt," in the notes to the accompanying Unaudited Condensed Consolidated Financial Statements for a discussion of our long-term debt and credit facilities and compliance with debt covenants.

Capital Expenditures

Our capital expenditures generally include the purchase of land and buildings, construction of new dealerships and collision repair centers, building improvements and equipment purchased for use in our dealerships. In January 2011, we purchased five dealership properties for \$75.2 million, which we were previously leasing through long-term operating leases, utilizing cash on hand and borrowings under the 2010 Credit Facilities. Subsequent to the purchase date, we obtained mortgage funding of \$54.4 million related to these properties.

Capital expenditures for the nine-month period ended September 30, 2011, including this purchase of previously leased properties, were approximately \$135.9 million (\$81.5 million, net of mortgage funding of \$54.4 million). As of September 30, 2011, contractual commitments to contractors for facility construction projects totaled approximately \$5.4 million.

Stock Repurchase Program

Our Board of Directors has authorized us to repurchase shares of our Class A common stock or redeem securities convertible into Class A common stock. Historically, we have used this share repurchase authorization to offset dilution caused by the exercise of stock options or the vesting of restricted stock awards and to maintain our desired capital structure. During the nine-month period ended September 30, 2011, we repurchased approximately 667,000 shares of our Class A common stock for approximately \$9.1 million. At September 30, 2011, our remaining repurchase authorization was approximately \$34.4 million. Under our 2011 Credit Facilities, share repurchases are permitted to the extent that no event of default exists and we have the pro forma liquidity amount required by the repurchase test (as discussed under the 2011 Revolving Credit Facility heading in Note 6, "Long-Term Debt," in the accompanying Notes to Unaudited Condensed Consolidated Financial Statements) and the result of such test has been accepted by the administrative agent.

Dividends

During the third quarter ended September 30, 2011, our Board of Directors approved a cash dividend of \$0.025 per share on all outstanding shares of Class A and Class B common stock as of September 15, 2011 to be paid on October 15, 2011. Subsequent to September 30, 2011, our Board of Directors approved a cash dividend on all outstanding shares of common stock of \$0.025 per share for stockholders of record on December 15, 2011 to be paid on January 15, 2012. Under our 2011 Credit Facilities, dividends are permitted to the extent that no event of default exists and we are in compliance with the financial covenants contained therein. The indentures governing our outstanding 9.0% Notes contain restrictions on our ability to pay dividends. The payment of any future dividend is subject to the business judgment of our Board of Directors, taking into consideration our historic and projected results of operations, financial condition, cash flows, capital requirements, covenant compliance, share repurchases, current economic environment and other factors considered relevant. These factors are considered each quarter and will be scrutinized as our Board of Directors determines our future dividend policy. There is no guarantee that additional dividends will be declared and paid at any time in the future. See Note 6, "Long-Term Debt," in the accompanying Unaudited Condensed Consolidated Financial Statements for a description of restrictions on the payment of dividends.

Cash Flows

For the nine-month period ended September 30, 2011, net cash provided by operating activities was approximately \$193.7 million. This provision of cash was comprised primarily of cash inflows related to operating profits, reductions in receivables and inventories and an increase in trade accounts payable, partially offset by a decrease in notes payable – floor plan – trade. Net cash used in investing activities during the nine-month period ended September 30, 2011 was approximately \$134.5 million. This use of cash was primarily comprised of purchases of land, property and equipment. Net cash used in financing activities for the nine-month period ended September 30, 2011 was approximately \$53.0 million. This use of cash was primarily related to a decrease in notes payable – floor plan – non-trade and repurchases of debt securities partially offset by mortgage loan proceeds.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We arrange our inventory floor plan financing through both manufacturer captive finance companies and a syndicate of manufacturer-affiliated finance companies and commercial banks. Our floor plan financed with manufacturer captives is recorded as trade floor plan liabilities (with the resulting change being reflected as an operating cash flow). Our dealerships that obtain floor plan financing from a syndicate of manufacturer-affiliated finance companies and commercial banks record their obligation as non-trade floor plan liabilities (with the resulting change being reflected as a financing cash flow).

Due to the presentation differences for changes in trade floor plan and non-trade floor plan in the Unaudited Condensed Consolidated Statements of Cash Flows, decisions made by us to move dealership floor plan financing arrangements from one finance source to another may cause significant variations in operating and financing cash flows without affecting our overall liquidity, working capital or cash flow. Accordingly, if all changes in floor plan notes payable were classified as an operating activity, the result would have been net cash provided by operating activities of \$143.1 million and \$25.3 million for the nine-month periods ended September 30, 2011 and 2010, respectively. The shift between trade floor plan and non-trade floor plan during the nine-month periods ended September 30, 2011 and 2010 was primarily due to the realignment in floor plan providers under the 2011 Credit Facilities and 2010 Credit Facilities, respectively.

Guarantees and Indemnification Obligations

In connection with the operation and disposition of dealership franchises, we have entered into various guarantees and indemnification obligations. See Note 8, "Contingencies," in the notes to the accompanying Unaudited Condensed Consolidated Financial Statements. See also "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Note 12, "Commitments and Contingencies," in the notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010.

Future Liquidity Outlook

We believe our best source of liquidity for operations and debt service remains cash flows generated from operations combined with our availability of borrowings under our floor plan facilities (or any replacements thereof), our 2011 Credit Facilities, real estate mortgage financing, selected dealership and other asset sales and our ability to raise funds in the capital markets through offerings of debt or equity securities. Because the majority of our consolidated assets are held by our dealership subsidiaries, the majority of our cash flows from operations are generated by these subsidiaries. As a result, our cash flows and ability to service debt depend to a substantial degree on the results of operations of these subsidiaries and their ability to provide us with cash.

Off-Balance Sheet Arrangements

See "Management's Discussion and Analysis of Financial Condition and Results of Operations – Off-Balance Sheet Arrangements" in our Annual Report on Form 10-K for the year ended December 31, 2010 for a description of our off-balance sheet arrangements.

Seasonality

Our operations are subject to seasonal variations. The first quarter normally contributes less operating profit than the second, third and fourth quarters. Weather conditions, the timing of manufacturer incentive programs and model changeovers cause seasonality and may adversely affect vehicle demand, and consequently, our profitability. Comparatively, parts and service demand remains more stable throughout the year.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES

Item 3: Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

Our variable rate floor plan facilities, revolving credit facility borrowings and other variable rate notes expose us to risks caused by fluctuations in the applicable interest rates. The total outstanding balance of such instruments after considering the effect of our interest rate swaps (see below) was approximately \$436.2 million at September 30, 2011. A change of 100 basis points in the underlying interest rate would have caused a change in interest expense of approximately \$3.5 million for the nine-month period ended September 30, 2011, approximately \$3.3 million of which would have resulted from our floor plan facilities.

In addition to our variable rate debt, as of September 30, 2011, approximately 20% of our dealership lease facilities have monthly lease payments that fluctuate based on LIBOR interest rates. An increase in LIBOR interest rates of 100 basis points would not have had a significant impact on rent expense for the third quarter and nine-month periods ended September 30, 2011 due to the leases containing LIBOR floors that were above the LIBOR rate during the quarter.

We also have various cash flow swaps to effectively convert a portion of our LIBOR-based variable rate debt to a fixed rate. Under the terms of these cash flow swaps interest rates reset monthly. The fair value of these swap positions at September 30, 2011 was a liability of \$39.3 million, with \$14.8 million included in other accrued liabilities and \$24.5 million recorded to Other Long-Term Liabilities in the accompanying Unaudited Condensed Consolidated Balance Sheets. See the previous discussion of “Interest Expense/Amortization, Non-Cash, Cash Flow Swaps” in Item 2: Management’s Discussion and Analysis of Financial Condition and Results of Operations. Foreign Currency Risk

We purchase certain of our new vehicle and parts inventories from foreign manufacturers. Although we purchase our inventories in U.S. dollars, our business is subject to foreign exchange rate risk, which may influence automobile manufacturers’ ability to provide their products at competitive prices in the United States. To the extent that we cannot recapture this volatility in prices charged to customers or if this volatility negatively impacts consumer demand for our products, this volatility could adversely affect our future operating results.

Item 4: Controls and Procedures.

Our management, under the supervision and with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer have concluded that the design and operation of our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q. During our last fiscal quarter, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1: Legal Proceedings.

Several private civil actions have been filed against us and several of our dealership subsidiaries that purport to represent classes of customers as potential plaintiffs and made allegations that certain products sold in the finance and insurance departments were done so in a deceptive or otherwise illegal manner. One of these private civil actions was filed on November 15, 2004 in South Carolina state court, York County Court of Common Pleas, against us and 10 of our South Carolina subsidiaries. The plaintiffs in that lawsuit were Misty J. Owens, James B. Wright, Vincent J. Astey and Joseph Lee Williams, on behalf of themselves and all other persons similarly situated, with plaintiffs seeking monetary damages and injunctive relief on behalf of the purported class. The group of plaintiffs' attorneys representing the plaintiffs in the South Carolina lawsuit also filed another private civil class action lawsuit against us and 3 of our subsidiaries on February 14, 2005 in state court in North Carolina, Lincoln County Superior Court, which similarly sought certification of a multi-state class of plaintiffs and alleged that certain products sold in the finance and insurance departments were done so in a deceptive or otherwise illegal manner. The plaintiffs in this North Carolina lawsuit were Robert Price, Carolyn Price, Marcus Cappeletti and Kathy Cappeletti, on behalf of themselves and all other persons similarly situated, with plaintiffs seeking monetary damages and injunctive relief on behalf of the purported class. The South Carolina state court action and the North Carolina state court action have since been consolidated into a single proceeding in private arbitration before the American Arbitration Association (the "Arbitrator"). On November 12, 2008, claimants in the consolidated arbitration filed a Motion for Class Certification as a national class action including all of the states in which we operate dealerships. Claimants are seeking monetary damages and injunctive relief on behalf of this class of customers. The parties have briefed and argued the issue of class certification.

On July 19, 2010, the Arbitrator issued a Partial Final Award on Class Certification, certifying a class which includes all customers who, on or after November 15, 2000, purchased or leased from one of our dealerships a vehicle with the Etch product as part of the transaction, but not including customers who purchased or leased such vehicles from one of our dealerships in Florida. The Partial Final Award on Class Certification is not a final decision on the merits of the action. The merits of Claimants' assertions and potential damages will still have to be proven through the remainder of the arbitration. The Arbitrator stayed the Arbitration for thirty days to allow either party to petition a court of competent jurisdiction to confirm or vacate the award. We will seek review of the class certification ruling by a court of competent jurisdiction and will continue to press our argument that this action is not suitable for a class-based arbitration. On July 22, 2010, the plaintiffs in this consolidated arbitration filed a Motion to Confirm the Arbitrator's Partial Final Award on Class Certification in state court in North Carolina, Lincoln County Superior Court. On August 17, 2010, we filed to remove this North Carolina state court action to federal court, and simultaneously filed a Petition to Vacate the Arbitrator's Partial Final Award on Class Certification, with both filings made in the United States District Court for the Western District of North Carolina.

On August 12, 2011, the United States District Court for the Western District of North Carolina issued an Order granting our Petition to Vacate Arbitration Award on Class Certification and denied Claimant's Motion to Dismiss the same. Claimants filed a Notice of Appeal to the United States Fourth Circuit Court of Appeals on September 12, 2011. The federal court's stay of the arbitration proceeding remains in force pending a ruling on Claimants' motion to lift the stay, which motion we have opposed. We intend to continue our vigorous defense of this arbitration and to assert all available defenses. However, an adverse resolution of this arbitration could result in the payment of significant costs and damages, which could have a material adverse effect on our future results of operations, financial condition and cash flows. We are currently unable to estimate a range of reasonably possible loss, or a range of reasonably possible loss in excess of amount accrued, for this litigation matter.

We are involved, and expect to continue to be involved, in numerous legal and administrative proceedings arising out of the conduct of our business, including regulatory investigations and private civil actions brought by plaintiffs purporting to represent a potential class or for which a class has been certified. Although we vigorously defend ourselves in all legal and administrative proceedings, the outcomes of pending and future proceedings arising out of the conduct of our business, including litigation with customers, employment related lawsuits, contractual disputes, class actions, purported class actions and actions brought by governmental authorities, cannot be predicted with certainty. Similarly, except as reflected in reserves we have provided for in other accrued liabilities in the accompanying Unaudited Condensed Consolidated Balance Sheets, we are currently unable to estimate a range of reasonably possible loss, or a range of reasonably possible loss in excess of the amount accrued, for pending proceedings. An unfavorable resolution of one or more of these matters could have a material adverse effect on our business, financial condition, results of operations, cash flows or prospects.

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
RISK FACTORS

Item 1A: Risk Factors

In addition to the information below and other information set forth in this Form 10-Q, you should carefully consider the risk factors discussed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2010, which could materially affect our business, financial condition or future results.

Disruptions in the supply-chain of automotive manufacturers and related parts suppliers may negatively impact our profitability.

As a retail company, we are dependent upon others to supply us with new vehicles for retail sale and vehicle components for our parts and service operations. Significant disruptions in these supply-chains may affect the availability of new vehicles and vehicle components that are necessary to our operations.

As a result of the March 2011 earthquake and associated tsunami affecting Japan, automotive manufacturing and automotive manufacturing support activities have been negatively affected. These automotive manufacturing and automotive manufacturing support activities served a wide range of companies globally. This includes the Japanese automotive manufacturers such as Toyota and Honda, and automotive manufacturers and parts suppliers globally that source component parts from the affected regions in Japan. Although it is difficult to quantify the effect of these events or the duration of the supply-chain disruption, we believe the following may occur:

- Lower supply of new vehicle inventory continuing into the fourth quarter;
- Higher cost of certain automotive parts while the supply-chain is disrupted;
- Higher cost of certain new vehicle inventory (sourced either directly from manufacturers or from other franchised dealers) while supply is lower;
- Changes in demand for certain used or certified vehicles, which may affect the acquisition cost and selling price of those vehicles; and
- Supply and manufacturing disruptions affecting other major automotive manufacturers in some manner due to the reliance on certain components that are sourced in Japan.

Our significant indebtedness could materially adversely affect our financial health, limit our ability to finance future acquisitions and capital expenditures and prevent us from fulfilling our financial obligations.

As of September 30, 2011, our total outstanding indebtedness was approximately \$1.3 billion, including the following:

- \$757.8 million under the secured new and used inventory floor plan facilities;
- \$208.7 million in 9.0% Senior Subordinated Notes due 2018 (the “9.0% Notes”), representing \$210.0 million in aggregate principal amount outstanding less unamortized discount of approximately \$1.3 million;
- \$144.8 million in 5.0% Convertible Senior Notes due 2029 which are redeemable by us and which may be put to us by the holders after October 1, 2014 under certain circumstances (the “5.0% Convertible Notes”), representing \$165.1 million in aggregate principal amount outstanding less unamortized discount of approximately \$20.3 million;
- \$178.4 million of mortgage notes, representing \$179.3 million in aggregate principal amount less unamortized net discount of approximately \$0.9 million, due from June 2013 to December 2031, with a weighted average interest rate of 4.78%; and
- \$39.1 million of other secured debt, representing \$37.7 million in aggregate principal amount plus unamortized premium of approximately \$1.4 million.

On July 8, 2011, we replaced our 2010 Credit Facilities with the facilities discussed below. We have \$175.0 million of maximum borrowing availability under a syndicated revolving credit facility (the “2011 Revolving Credit Facility”), up to \$500.0 million in maximum borrowing availability for new vehicle inventory floor plan financing and up to \$80.0 million in

SONIC AUTOMOTIVE, INC. AND SUBSIDIARIES
RISK FACTORS

maximum borrowing availability for used vehicle inventory floor plan financing (the “2011 Floor Plan Facilities”). We refer to the 2011 Revolving Credit Facility and 2011 Floor Plan Facilities collectively as our “2011 Credit Facilities”. As of September 30, 2011, we had \$88.2 million available for additional borrowings under the 2011 Revolving Credit Facility based on the borrowing base calculation, which is affected by numerous factors including eligible asset balances and the market value of certain additional collateral. We are able to borrow under our 2011 Revolving Credit Facility only if, at the time of the borrowing, we can make all representations and warranties and are in compliance with all financial and other covenants contained therein. We also have capacity to finance new and used vehicle inventory purchases under bilateral floor plan agreements with various manufacturer-affiliated finance companies and other lending institutions (the “Silo Floor Plan Facilities”) as well as our 2011 Floor Plan Facilities. In addition, the indentures relating to our 9.0% Notes, 5.0% Convertible Notes and our other debt instruments allow us to incur additional indebtedness, including secured indebtedness, as long as we comply with the terms thereunder.

In addition, the majority of our dealership properties are leased under long-term operating lease arrangements that commonly have initial terms of fifteen to twenty years with renewal options ranging from five to ten years. These operating leases require compliance with financial and operating covenants similar to those under our 2011 Credit Facilities, and monthly payments of rent that may fluctuate based on interest rates and local consumer price indices. The total future minimum lease payments related to these operating leases and certain equipment leases are significant and are disclosed in Note 12, “Commitments and Contingencies,” in the notes to the Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010.

The outcome of legal and administrative proceedings we are or may become involved in could have a material adverse effect on our future business, results of operations, financial condition and cash flows.

We are involved, and expect to continue to be involved, in numerous legal and administrative proceedings arising out of the conduct of our business, including regulatory investigations and private civil actions brought by plaintiffs purporting to represent a potential class or for which a class has been certified.

Forward Looking Statements

This Quarterly Report on Form 10-Q contains numerous “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements address our future objectives, plans and goals, as well as our intent, beliefs and current expectations regarding future operating performance, and can generally be identified by words such as “may,” “will,” “should,” “believe,” “expect,” “anticipate,” “intend,” “plan,” “foresee” and other similar words or phrases. Specific events addressed by these forward-looking statements include, but are not limited to:

- the effect of the earthquake and tsunami in Japan on our operations;
- vehicle sales rates and same store sales growth;
- future liquidity trends or needs;
- our business and growth strategies;
- future covenant compliance;
- our financing plans and our ability to repay or refinance existing debt when due;
- future acquisitions or dispositions;
- level of fuel prices;
- industry trends; and
- general economic trends, including employment rates and consumer confidence levels.

These forward-looking statements are based on our current estimates and assumptions and involve various risks and uncertainties. As a result, you are cautioned that these forward-looking statements are not guarantees of future performance and that actual results could differ materially from those projected in these forward-looking statements. Factors which may cause actual results to differ materially from our projections include those risks described in Item 1 and Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2010 and Item 1A of this Form 10-Q and elsewhere in this report, as well as:

- the number of new and used cars sold in the United States generally and as compared to our expectations and the expectations of the market;
- our ability to generate sufficient cash flows or obtain additional financing to fund acquisitions, capital expenditures, our share repurchase program, dividends on our Common Stock and general operating activities;
- the reputation and financial condition of vehicle manufacturers whose brands we represent, the financial incentives vehicle manufacturers offer and their ability to design, manufacture, deliver and market their vehicles successfully;
- our relationships with manufacturers, which may affect our ability to complete additional acquisitions;
- adverse resolutions of one or more significant legal proceedings against us or our dealerships;
- changes in laws and regulations governing the operation of automobile franchises, accounting standards, taxation requirements and environmental laws;
- general economic conditions in the markets in which we operate, including fluctuations in interest rates, employment levels, the level of consumer spending and consumer credit availability;
- the terms of any refinancing of our existing indebtedness;
- high competition in the automotive retailing industry, which not only creates pricing pressures on the products and services we offer, but on businesses we seek to acquire;
- our ability to successfully integrate potential future acquisitions; and
- the rate and timing of overall economic recovery or decline.

CERTIFICATION

I, David P. Cospers, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Sonic Automotive, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements and other financial information included in this report fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
